Engineer-In-Training – Civil Engineering

Location: Kaysville, UT

Position Overview:
J-U-B ENGINEERS, Inc. (J-U-B) is seeking an Engineer-in-Training to work in our Kaysville, UT office. As one of the largest professional engineering companies in the Intermountain West, J-U-B delivers innovative services to allow our clients to succeed while providing a long-term, stable work environment for our employees.

While applying technical, engineering knowledge and skills, this position will:
- Be an entry level member of our team, providing support to experienced engineers and technicians
- Be able to grow and learn a variety of civil engineering applications including water, wastewater, transportation, storm water, planning, GIS, structural, design, drafting, and others
- Help with the planning, design and implementation of infrastructure designs for a variety of projects.
- Typically participates in all phases of the project design and construction, depending on specific project needs.
- Analyze engineering data, review existing reports and documents, interpret plans and specifications, and makes sound decisions with the support of experienced engineers and technicians to solve challenges.
- Develop designs and layouts using AutoCAD and Civil 3D software packages, providing drafting support to senior engineers and designers.
- Model fluid systems including water, wastewater, and storm water using software packages.
- Collaborate with other engineers and public agencies (Cities, Counties, State, etc.) on projects.
- Interact with government agencies for necessary permits, crossing agreements, easements, encroachments and other necessary requirements.
- Attend public meetings, public forums and open houses to discuss project details, answer questions from the public, as required.

Qualifications:
- Bachelor degree (B.S.) in Civil Engineering or equivalent
- Certification as Engineer-in-Training (passed Fundamentals of Engineering Exam)
- Internship experience on relevant similar work is desired but not required
- GIS and CAD experience is desired but not required

Salary Range: Determined by experience. In addition to your great salary, J-U-B also offers a competitive benefit package including insurances, bonuses for qualified employees, a flexible work schedule, and the ability to work in a team-centered, collaborative, and supportive atmosphere.
