Engineering Intern

Houston, Texas

BergerABAM has a paid engineering internship position available for Summer 2014 in our Houston, TX office. The student will be working with engineer mentors in the company's International Ports and Terminals group on active projects located in Central and South America; and other domestic and international locations. The student must be fluent English/Spanish speaking, reading and writing. Full-time work from May/June to August/September 2014.

Position requires:

- Civil engineering students specializing in structures
- Three years undergraduate program completion or graduate students preferred
- Bilingual English/Spanish (speaking/reading/writing)
- Desire to learn engineering methodology, and be mentored by experienced engineers
- Strong oral and written communication ability
