International Engineering Internship

About Autoliv: For over 60 years, Autoliv has focused on one very important issue: saving lives. Our innovative products save 30,000 lives every year and prevent 10 times as many injuries. We are first and foremost a safety technology company. In the world of automotive occupant safety, we were the first to introduce the two- and three-point seat belt system and airbags for front and side impacts. We were also the first to launch pyrotechnic belt pretensioners and pedestrian protection systems. Meeting real-world customer needs with a wide range of products and systems has helped us become the clear market leader in automotive safety. Engaging 58,000 employees worldwide in 29 countries working with 1,300 car models.

Position Description and Responsibilities: Are you interested in saving lives through the work you do? At Autoliv, we estimate that over 30,000 lives are saved each year through our products. And, we are working to significantly increase this number. Autoliv is a Fortune 500 Company with annual revenues well over 8 billion dollars. Autoliv Electronics has a fast paced work environment and we seek talented associates who crave learning new skills and aren't afraid to tackle big projects. As an intern you will get to work with a variety of our staff, while working on real projects that will help us grow.

Our ideal candidate is someone who is task-oriented, self-motivated and can work well with others. We are looking for someone who is interested in international business and is creative and thoughtful when interacting with those of other cultures. Although located in Japan, a good percentage of our staff is from other Asian countries as well as from Europe and the US. We also regularly interact with many of the 80 other Autoliv sites throughout the world.

What You Will Learn:
• How to create a Quotation Analysis Form in preparation for providing price estimates to customers.
• Analysis of sales data and market share trends for various products using industry-specific software.
• Create compelling presentations that can be used by our staff.
• Assist our Human Resources Manager in tracking and analyzing manpower and overtime reports.
• Plenty of additional opportunities in related projects.

What We Require:
• Academic pursuit in Business, Accounting, Engineering, Human Resources or other related discipline.
• Strong communication skills with some proficiency in Japanese.
• Proficient in Microsoft Suite Office.
• Organized, with an ability to prioritize time-sensitive assignments, creative and flexible.
• Interest in management, business and people development.
• We value our interns and will make sure you receive a learning experience that fits your career goals. You will become knowledgeable in automotive safety and gain an understanding of tracking organizational goals in a professional setting. You will also learn how to work in a professional environment and have ample opportunity to network with department leaders and other professionals in the automotive safety field.

Details: The position period begins May 1 and ends August 31st, however we can be somewhat flexible with the start and end dates to suit your schedule. You are expected to work a minimum of 40 hours a week.

Compensation: Includes the cost of round trip airfare, housing (furnished apartment), and living allowance.

Contact: To apply please submit your resume and cover letter to Yumi Nekomoto (Manager, Human Resources) at: yumi.nekomoto@autoliv.com

Note: Students selected for the international internship must register for the Weidman Center Global Internship and have international health insurance (HTH) for the duration of your international assignment.
