Internship to start end of May/early June

Please apply online: [https://psomas.applicantpro.com/jobs/385707-8713.html](https://psomas.applicantpro.com/jobs/385707-8713.html)

Description: This position is for someone who is technically savvy for elementary Civil Engineering design. You will help support the team on facilities, infrastructure and land development design projects.

Duties: As an Intern you work as part of a project team to support the Engineering team with design work, CAD, and other projects as assigned by project engineers. Design efforts in conventional aspects of Civil Engineering, may include: residential and commercial site engineering and infrastructure design, along with general site engineering design/drafting for site development projects.

Qualifications:
- Seeking a 3rd or 4th year student with a major in Civil Engineering from an accredited university. Only candidates from local universities in the Salt Lake City area will be considered.  
- Must be available to work a minimum of 30 hours/week during the summer and the ability to work 15-25 hours/week during the school year is preferable. 
- Must be a self-starter with initiative to learn and acquire new skills. 
- Candidates with experience in AutoCAD will receive preference; Experience or exposure with Civil3D is a plus.
- Candidate should possess strong written and verbal communication skills, as well as, strong Microsoft Office skills.
- Previous internship working on site development projects is a plus.
- Must be organized and able to multi-task while taking direction from different staff members
- Must have excellent time management skills.
- EIT preferred

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.
